

## **Consultant Psychiatrists** **Manaaki House** **Auckland District Health Board**

Manaaki House has an experienced team of mental health professionals that provide services to the adult population of the East Central suburbs of Auckland, based in Panmure.

We are looking for experienced Adult Psychiatrists to work across crisis and continuing treatment sub-teams and work collaboratively with the primary health sector. You will be responsible for your own caseload and also provide medical input to the rest of the multi-disciplinary team. You will see service users at the Centre in Panmure, but will also be required to do home visits at times. There is likely to be the opportunity within the role (0.2FTE) to work more intensively to provide community support for a small number of service users with high and on-going needs, in conjunction with other non-medical staff.

The position includes the opportunity to advance your own practice and to be involved in on-going professional development and supervision. You will also be required to participate in the on-call Psychiatrist roster. You must have basic computer skills and a clean drivers licence. Eligibility for vocational registration in NZ is a must.
